

# Marcia Karp in Norway!

## A Master Class in Psychodrama: A Therapy of Relationships

Oslo May 22nd through May 24th 2009

Reserve these dates for the major psychodrama event of 2009.

The Norwegian Psychodrama Association (NFPSG) proudly invites you to come and participate in an extraordinary experience when Marcia Karp from the United Kingdom visits Norway this spring. Marcia Karp is a world known psychodrama therapist, teacher and author. This weekend you will have an opportunity to learn from a true master of psychodrama.

We expect participants from all over Scandinavia as well as our friends and colleagues from the Baltic countries to join us. We hope to gather an impressively large group of participants (as many as up to one hundred people) and experience together Marcia's unique talent for facilitating change and growth for groups of this size.

This is your chance to meet Marcia Karp and mingle with a large group of psychodramatists from different countries, organisations and backgrounds. The workshop will be in English.

### **Practical information:**

**Price for workshop:** NOK 1 750,-/€ 200,- when booking before April 1st.  
When booking after April 1st - NOK 2 200,-/€ 250,-.
